

The Sherpa Life

You, Sherpa, are showing tourists all that the Himalayas has to offer! Your tourists have specific requests on what they want to see and collect, so make sure you keep looking for an **exact** type of berry, flower, animal, or tree!

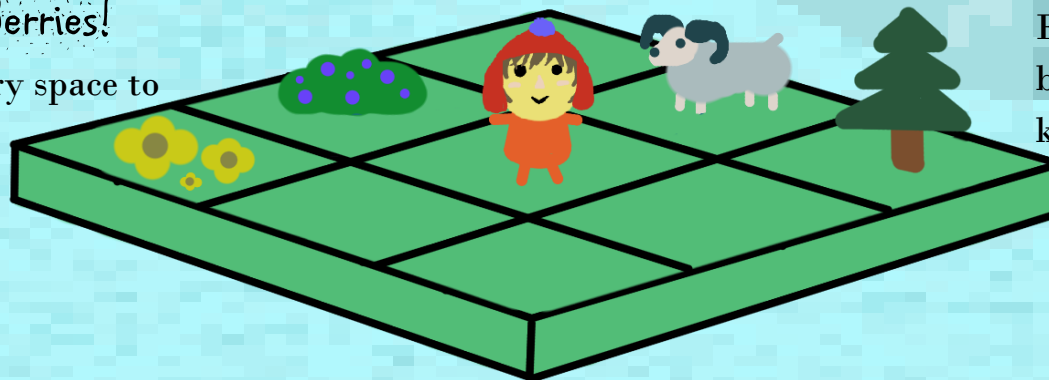

Move Around the Mountain!

Tap and drag to move your character. Move in cardinal and diagonal directions but you can't get past walls and rocks! Watch out for avalanches!

Collect Flowers and Berries!

Land on a flower or berry space to see what kind it is!

See Animals and Trees!

For animal and tree spaces, you must be in the line of sight to reveal what kind it is!

Complete all your tourist requests and make it to the top first!
