

Penguin Shotgun Baseball Test Plan

Information

Game Title: Penguin Shotgun Baseball

Contact: Ryan Murphy Phone: (203)-451-7982

Email: Ryan.Murphy@mymail.champlain.edu

Intent of Test

My goal for this test is to see how smoothly the game is running and if all of the functions are working properly. I would like to try and find out if the game overall is working as it should be and of course if there are any bugs in the game that you would report them.

Game Set Up

- Download the app on the Apple Store or Google Play (the game is free and there will be devices there you can use if you choose to)
- Load up the game and tap the screen to start

Testing Script

Ryan Murphy: Hello! My name is Ryan Murphy and this is our game Penguin Shotgun Baseball. Penguin Baseball Shotgun is a simple one button game that allows you to play as the ghost of Lou Gehrig that currently possess a baseball and you need to work

with a bus company in Antarctica in order to get back to America to play in the World Series. You make money in the Game by hitting a penguin with your shotgun as far as you can so that the bus company will have to go pick up the penguin and bring them back. The farther you hit the penguin the more money you will get.

hand them the device and observe them play

Something that I am looking for when observing them play the game is see how simple the controls are to understand. See how long it takes them to experience all of the different functions to the game and overall watch their reactions to playing, if they looks confused happy or just not interested in it.

Feedback Questions

What are your overall thoughts on the game?

Was it easy to pick up and start playing?

Did you find any bugs while playing?

If there is one thing you would add to the game what would it be?
