Were you ever confused by the control scheme

17 responses

If you answered yes or maybe to the last question, what was confusing about the controls

10 responses

It was hard to tell when shooting in space if it helped or not

Just the initial time playing, I think with a solid set of rules/objectives listed at the beginning it would've been more clear

There was no explanation

the space bar for hit with the bat was very delayed

you press space bar... what is tehre to be confused about?

Didn't know about a 2x tap on the spacebar

Why does shooting the penguin do literally nothing even when I hit it?

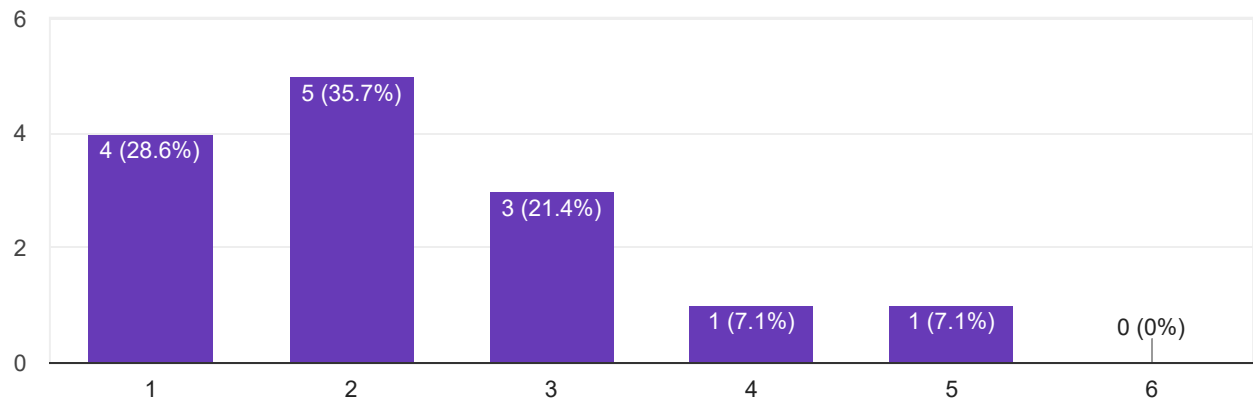

no instructions

I didn't like how the power meter was getbuttonup

Was not aware the project was to use a space bar.

What did you think of the Swinging Mechanic?

14 responses

What was the furthest you hit a penguin?

17 responses

- NA
- 200,000 feet
- No idea, there was no score / distance counter
- 220something
- 1019
- 576
- 1202
- 378
- 30ft i think, didnt record it in my memory.
- 150ft
- 370
- i dont remember

over 400 feet.

i dont remember im sorrrryyyyy

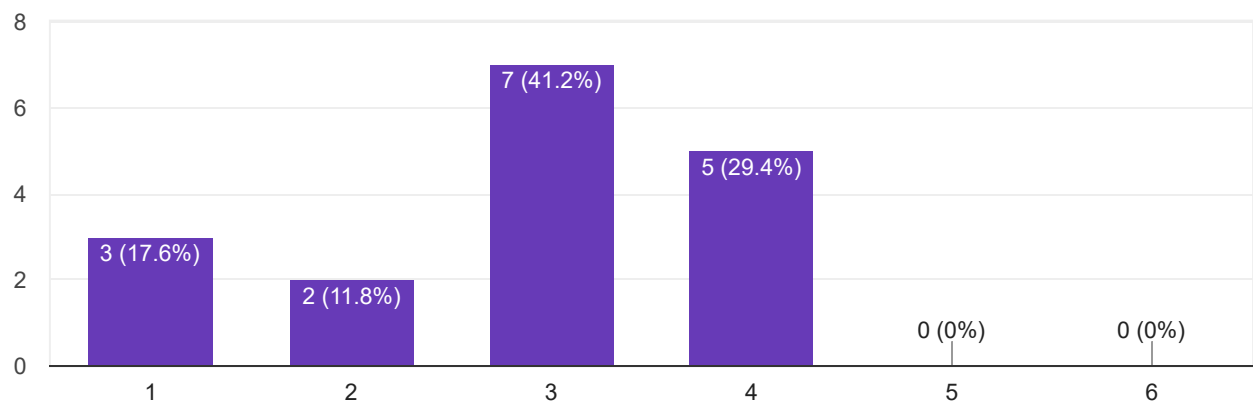

big numbers

1331. WORLD RECORD

450ft

How would you describe the number of boosters in the play area?

17 responses

How would you describe the number of obstacles in the play field?

17 responses

Did you find any bugs while playing? If yes what were they?

13 responses

I fell through the ground

projectile fell through floor and spawned spikes too close to hit point

eh. the swing seemed a bit off

I went to -27. Love it. Camera went out of bounds.

i made the penguin go under the map, not sure how i did that. I might have shot him when he went on the ground. can hit the penguin before the pitch.

I missed the swing and my penguin and the game bugged out a bit. Decent!

-20 feet

none

Nope.

penguin started from previous landing place when i hit too early

swinging before the penguin gets to you

Nope

Being able to go backwards.
